PROJECTS

Recommendation System of IMDB (07/2021 - 07/2021) ⌖

- Scraped data from IMDB site and converted features to vectors using TFIDF vectorizer.
- Applied cosine similarity to recommend movies based on movie names and directors.

Diabetes Prediction (05/2021 - 05/2021) ⌖

- This is a Machine learning project which predicts if a woman has diabetes or not.
- Made simple android application which takes the input from the user and gives it to the API which I built using FastAPI.

Alerts (03/2020 - 04/2021) ⌖

- This project is an Android application which displays news.
- The project was made using various components like Recycler view, Volley library, Glide library, Shared-Preferences etc.

CERTIFICATES

Python Basic ⌖

Python Business Analyst ⌖

Data Visualization and Communication with Tableau ⌖

PYTHON for Data Science ⌖
